

B A R U T I

**BARUTI is Greek for „gunpowder“,**

also a word used to describe something  
that has bite or edge.

This is what my dreams smell like  
I make personal and immediate perfumes  
Deceptively playful  
Rooted in the unconscious  
Perplexing the senses  
Like kaleidoscopic explosions of beauty  
They can blow you away

Spyros (Amsterdam 2014)
